

Possible applications include :

Common accessories for gates

Features

- Aluminum door handles Fixing of the handle with stainless steel set screws Supplied with a 7 mm stainless steel square and installation key

Tip

- Carefully determine the handle model based on your specific use case. The thicknesses are indicated for the total thickness of the installation: support thickness (shutter, door, gate) + lock thickness + plate or entrance thickness. Square can be cut within the limit of the anti-slip shape. Other combinations with our different handles are also possible. Please contact us for more information.

Possible applications include :

Common accessories
for gates
